The matter was considered by the SEAC in its 71st meeting held on 22.03.2023 and forwarded to SEIAA for necessary action. It was observed that the project area falls within the Jalan Industrial Complex, - an area declared as a severely polluted area. Therefore, the PP was not called for presentation in the SEAC meeting. This is a case where application has been received but the case has not yet been taken up by SEAC since this attracts the provision of sub-para (iii) of para 2. of MoEFCC OM F No. 22-23/2018.IA.III dated 30.12.2019. The SEAC decided that, in compliance to the provision of the OM referred above, the case 'may be transferred to' MoEF&CC for 'dealing at Central level as per the OM' of even no. 'dated 31st October, 2019'.

It was also observed that the cardinal geo-coordinates of the proposed project area (as reported in the approved Mining cum Progressive Mine Closure Plan), when plotted, showed that a major portion of the area falls within the potential mining zone recorded in the approved District Survey Report (DSR) of Purba Bardhaman district. However, it was also observed that the plot area overlaps with an adjacent project (proposal no. SIA/WB/MIN/74618/2022 of M/s.
