No. 1833 / EN / T- II-1 / 077/2012

Date: 23rd August, 2017

To
The General Manager (BD & NP),
Cochin Shipyard Limited,
Administrative Building,
Po. Bag Np. 1653, Perumanoor,
Po. Kochi – 682 015.

Sub: Proposal for rehabilitation cum restructuring of M/s Hooghly Dock and Port Engineers Ltd.
Ref: Your letter No. BDNP/HDPEL/2017 dated 10.08.2017.

Sir,

In reply to your letter under reference, we would like to state that without details of the proposed project it would not be possible for SEIAA to give its decision on requirement of environmental clearance (EC) for the project. The activities which require EC is enumerated in the scheduled of EIA Notification, 2006. Apparently, from the brief statement about the project given in your letter, it seems that the project may come under item no. 7(b) (all ship breaking yards including ship breaking units), 7(e) (Ports, Harbours, Breakwaters, Dredging) or 8(a) (building & construction projects having built up area \geq 20000 sqm.) if your proposed project have activities which fall under any of the mentioned items.

However, for any clarification on the matter from SEIAA, you are requested to give details of your project (existing and proposed) to enable this office to examine if the project would fall under any of the items covered under EIA Notification mentioned above. If needs so arise, SEIAA may seek clarification from MoEF&CC.

Yours sincerely,

(Sandipan Mukherjee, IFS)
Member Secretary, SEIAA
